

World Kitchen

At the heart of our learning...

Learning Journey:

In PSED and Communication and Language we will learn: about caring for each other and how to be a good friend.

In Literacy we will learn: about how to use adjectives. We will be listening to stories from other cultures and then enjoy using them as inspiration to develop our own class stories.

In Maths we will learn: how to count beyond 20 accurately and deepen our knowledge of addition and subtraction, using language fewer, less, more than and difference. We will also continue our shape recognition and time sequencing work.

In Expressive Art and Design we will learn: the different skills needed to construct a moving model. We will also take on the role of a chef in a restaurant role play.

In Physical Development we will learn: to move in a range of ways, safely negotiating space.

In Understanding The World we will learn: about our environment and how we can keep it safe for all living things. We will study the plants and animals of the rainforest as well as doing some experimenting as we plant and growing our own vegetables.

Spring term 2

February - March 2019

Special events

World Book Day

DT competition

Courage

Trying something new

Compassion

Caring for each other

Co-operation

Taking turns and sharing
